Tokyo-Tama
Yuzu Monaka

By Ginza kazuya

This confectionery carries everyone's dreams and thoughts throughout the world.

We produced Japanese confectionery featuring yuzu from the Tokyo Tama region, in conjunction with yuzu farmers who strive to protect traditional agriculture derived from their ancestors.

The main ingredient is 'Sawai Yuzu' from Ōme city that has a fresh, exquisite citrus scent. The yuzu flavor goes surprisingly well with the crispy shell of monaka and the chewy, jelly like texture of warabi mochi. Keep chilled until ready to serve.

Persons with disabilities (PWD) from Tama Kusamura no Kai participated in production processes and procedures.

Yuzu is carefully chopped and made into jam for the confectionery. Through this project, we support PWD who are willing to be a part of society.

*Tama Kusamura no Kai is a non-profit organization that assists PWD in achieving the greatest degree of independence and community integration.

Tokyo Tama World Project by Ginza Kazuya

We launched Tokyo Tama World Project with the hope of making people happy through this confectionary. We interviewed people who are directly involved with the project and those who strive to achieve goals in their own way. Their attitudes towards work and life are inspiring, and we are proud of introducing these Tama citizens to the world.

A message from a tiny Japanese confectionary store to the world.

Ginza Kazuya is a tiny confectionary store. The former Japanese chef strives to produce his original Japanese confectionary by bringing out the flavor of ingredients. 'Tama Yuzu Monaka' and 'Tama Yuzu Warabi' turn out to be the products that carries everyone's dream and thoughts throughout the world. Our hope is to build a future where everyone works together with a smile despite all the differences that we have, such as language, skin color and culture.

We believe that this is the first step to achieve that goal.
